

Department of Orthopaedic Surgery

Educational Curriculum Guide

(Revised 2014)

University of Tennessee College of Medicine Chattanooga
Department of Orthopaedic Surgery
Orthopaedic Surgery Residency Program

Educational Curriculum Guide
Revised July 2014

Mission Statement

The mission of the Orthopaedic Surgery Residency Program of the University of Tennessee College of Medicine Chattanooga is to train qualified residents to practice high quality orthopaedic surgery. The three main components of the educational program -- curriculum, research, and patient care-- are structured to offer the knowledge, skills, attitudes, and clinical judgment required for the competent practice of orthopaedic surgery.

Program Overview

The Department of Orthopaedic Surgery is committed to educating resident physicians to becoming competent, independent practitioners capable of providing the highest quality patient care in the specialty area of orthopaedic surgery. The curriculum includes extensive education in basic science as well as clinical, cognitive and technical skills.

The residency program is a university-based hospital program with the clinical training primarily within the Erlanger Health System. At the main campus, orthopaedic surgery training is supported by a large, tertiary medical center and designated Level 1 Trauma Centers for adults and children.

Baroness Erlanger Hospital (456 bed adult hospital)
T. C. Thompson Children's Hospital (110 bed pediatric hospital)

Plaza Ambulatory Surgery Center

Goal

For the resident to be educated and trained to be a competent and independent practitioner providing high quality care in the specialty area of orthopaedic surgery. Competency should be attained in six key areas:

Patient Care
Medical Knowledge
Professionalism

Interpersonal and Communication Skills
Practice-Based Learning
Systems-Based Practice

PGY1 – see page 3

PGY2-5 – rotations on various subspecialties. The total time spent on the rotations is as follows:

Ortho trauma – 12 mos	Arthroplasty	} 4 mos each
Sports/Shoulder/General – 8 mos	Elective Surgery	
Pediatric orthopaedics – 6 mos	Foot & Ankle	
Research – 2 mos.	Hand	
	Spine	

Instructional Methods

Conferences
OR & Office/Clinic Supervision
Surgical Skills Lab

Arthroscopic Skills Courses
OITE Reviews
Institutional Core Curriculum

Conferences – 5 hours/week

Grand Rounds
Journal Club
Basic Science
M&M
Sports/Radiology
Fracture Conference
Anatomy
Physical Exam
Scoliosis

Curriculum Conferences
*Arthroplasty
*Foot & Ankle
*Hand
*Pediatrics
*Spine
*Sports
*Trauma

Evaluation of Residents

- Rotation specific evaluations based on 6 core competencies and Milestones
- Daily communication in OR, clinics and conferences
- 360° evaluations 2 times/year
- Semi-annual evaluations by Program Director
- OITE scores
- Semi-annual Milestone evaluations by Clinical Competency Committee

Summary of Orthopaedic Rotations:

PGY-1 Level

Sports/General Ortho Emergency Pediatric Ortho	} 1 mo each	Rheumatology Plastic/Burn Surgery SICU Vascular Surgery	} 1 mo each
Orthopaedic Trauma	3 mos	Gen. Surgery Trauma	2 mos

PGY-2 Level

- Foot/Ankle Surgery (2 months)
- Hand Surgery (2 months)
- Orthopaedic Trauma (4 months)
- Sports, Shoulder General (2 months)
- Pediatric Orthopaedic Surgery (1month)
- Research (1 month)

PGY-3 Level

- Pediatric Orthopaedic Surgery (2 months)
- Orthopaedic Trauma (4 months)
- Spine (2 months)
- Sports, Shoulder General (2 months)
- Arthroplasty/Adult Reconstruction (2 months)

PGY-4 Level

- Hand Surgery (2 months)
- Foot/Ankle Surgery (2 months)
- Orthopaedic Trauma (2 months)
- Pediatric Orthopaedic Surgery (3 months)
- Spine (2 months)
- Research (1 month)

PGY-5 Level (Chief Resident)

- Sports, Shoulder, General (4 months)
- Orthopaedic Trauma (2 months)
- Arthroplasty/Adult Reconstruction (2 months)
- Chief Elective Surgery (4 months)

Resident Resources Supplied by Department

Books/Journals Currently Provided

- ◆ *Journal of Bone and Joint Surgery* (PGY-1 – 5)
- ◆ *JAAOS* (PGY-1 – 5)
- ◆ *Orthopaedic Basic Science Text* (PGY-1) ebook
- ◆ *OKU – 9th edition* (PGY-1) ebook
- ◆ *Tachdjian's Pediatric Orthopaedics*(PGY-2) ebook

- ◆ 64G iPad

- ◆ Loupes (PGY-1) basic set of loupes

- ◆ Lead (PGY-1)

- ◆ AAOS ResStudy subscription provided

Additional texts and journals for specific rotation **must be checked out of program office. At the end of each rotation the books must be returned to the program office in good condition.**

*The UT College of Medicine provides access to the American Medical Association's Introduction to the Practice of Medicine (IPM) online educational series. Information on this series is distributed by the Office of Graduate Medical Education.

Research

Orthopaedic surgery residents are required to have one research project completed and written in a publishable format and submitted to and approved by the program director before graduation. A one-month rotation at PGY-2 and at PGY-4 allows concentrated attention to research projects. Residents will be allowed additional time to work on their projects with the specific times being approved by the rotation director.
